## Prevention

- Observe good infection prevention practices to minimise risk when handling, housing and transferring animals
- Minimise direct or prolonged contact with sick people and animals
- Wear protective clothing when in contact with animals and infected people
- CoV are easily killed on environmental surfaces so disinfect frequently touched surfaces often using a healthcare grade disinfectant such as Oxivir

### Sanitize hands using alcohol based hand rub

Use alcohol hand rub unless hands are visibly soiled.

Or

### Frequent handwashing

Wash hands with soap and water for at least 20 seconds.

### Cover your mouth and nose

With a tissue or sleeve when coughing, sneezing and preparing & cooking food.

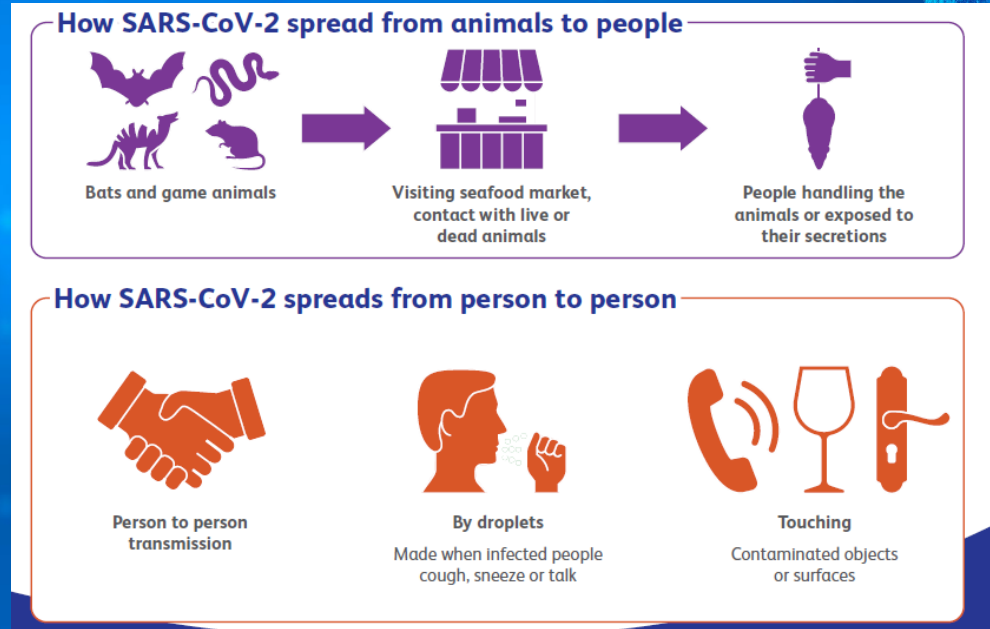

### Avoid close contact

With anyone showing symptoms of respiratory illness.

# PPE, when and how to use

For better understanding in when and how to use PPE we need to understand how it spreads
